Our mission is to be a community of learners in which individuals reach their maximum potential intellectually, socially, emotionally and physically.

October 11, 2012

Dear Parents/Guardians of TPS Students,

As you are aware, our school has been involved in a PCB remediation project for the past year. I am happy to report that we will begin the final phase of the project next week. We expect that this final remediation process will take two weeks (pending weather) and will begin on Monday, October 15, 2012. In order to accommodate the workers, we will need to relocate two classrooms from the 100 wing to other parts of the school building. The workers will then work in the empty classrooms of the 100 wing from 7:30-3:30 and then move to the outside courtyard from 3:30-5:30.

The Town of Princeton is eager to finish this project in a timely manner and understands the need to work around the educational environment with the least possible disruption. Please refer to the TPS or WRSD website for further updates. Any concerns or questions should be directed to me at TPS. Thank you for your continued support.

Sincerely yours,

Mary E. Cringan
Principal
