The Friends of ECC is the parent group for the Wachusett Regional School District's Early Childhood Center. It is an integral part of the Early Childhood Center program. It provides a route for parents, guardians, and others to take an active part in each child's education.

The primary mission of the group is to support the teachers, therapists, and the director in accomplishing their primary goal: to provide a positive first school experience for the children. We do this in a variety of ways:

- Providing volunteers for the classrooms
- Funding enrichment programs
- Purchasing educational toys, playground equipment, classroom materials, and technological hardware and software
- Teacher appreciation luncheons
- Parent outreach
